For producers and musicians who like to experiment, it is a perfect tool to experiment with different drum kits, creating their own unique sound and mood. My relationship to the music I play is more like that of a boxer than a musician. I want to see what the music that I like will do, and then I want to go back to my technique, my strengths and weaknesses, and use that to give it a new twist. A local band here is called Duran Duran. They're not from my hometown. Duran Duran is one of my favorite bands of all time. Just about every song of theirs I love the most and I play them for the students at my school. If they ask me what is this drum sound like I really cannot describe it. It's just an all-around fun, energized, extremely high-energy feeling. The sound of a really good rock band. There's a lot of things they do, but it's a combination of all of the things I mentioned above: the perfect drum beats, the bass lines, and the guitar solo. It's the sort of sound that you can listen to for an hour or two or any length of time. That's the main reason why I like to play my drums in our band. 5ec8ef588b
